1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 13-25 are cancelled.

2) The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is that the cited prior art does not show a method for loading glass for processing that includes dividing a glass plate into a residual glass portion, which is back-stored, and a loading glass portion for processing; repeating the steps to place the loading glass portions in a predetermined sequence, and wherein the loading glass portion is completely scribed with at least two scribed lines prior to the glass plate dividing and not requiring further scribing during glass processing (claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3) Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Halpern whose telephone no. is 571-272-1190.
